

# Tejas Khaire

Full-Stack Developer | khairetejas76@gmail.com | +91-9730426356 | Mumbai, India | github.com/Tejas978

## CAREER OBJECTIVE

Enthusiastic Full-Stack Developer with expertise in MERN stack and hands-on project experience. Proficient in Java, building scalable and user-focused web applications. Passionate about applying technical skills and delivering effective solutions through innovative projects.

## EDUCATION

### VPPCOE & VA, University of Mumbai

B.E. in Information Technology; CGPA: 8.1/10

Mumbai, India

July 2022 – May 2026

### Matoshri College

HSC - Science; 88%

Chandrapur, India

2022

### Macaroon Students Academic

SSC – 10th Grade; 81%

Chandrapur, India

2020

## EXPERIENCE

### Google AI-ML Virtual Internship

AI-ML Intern — AICTE & EduSkills

Remote

July 2025 – Sept 2025

- Completed a 10-week AI/ML virtual internship supported by the India Edu Program and Google for Developers.
- Learned and applied core machine learning and artificial intelligence concepts through hands-on projects.
- Received mentorship from industry experts and documented internship outcomes and learnings.
- Collaborated with peers on mini-projects to build AI/ML solutions for real-world problems.

## PROJECTS

### SkillBoost — AI-Powered Learning Management System [\[Live\]](#) ↗

MERN Stack, Gemini AI

- Built a full-stack Learning Management System with secure, role-based authentication for students and instructors.
- Developed instructor dashboard to manage course creation, lecture uploads, student enrollments, and revenue.
- Developed a voice-enabled AI course search feature allowing users to search courses using spoken queries.
- Integrated Razorpay payment gateway and Google authentication with end-to-end workflows for course creation, enrollment, reviews, and ratings.

### BillDesk — AI-Enabled Invoice Generator [\[Live\]](#) ↗

MERN Stack, Clerk Authentication, Gemini AI

- Built a full-stack AI-powered invoice system to create, manage, and track professional invoices securely.
- Integrated Gemini AI for intelligent auto invoice filling by extracting client details, items data directly from NL input.
- Designed a persistent Business Profile module to store company details (logo, stamp, signature, address) for seamless invoice creation.
- Implemented secure authentication and user-level data isolation using Clerk to ensure protected access to invoices and business information.
