

Tejas Khaire

Full-Stack Developer | khairetejas76@gmail.com | +91-9730426356 | Mumbai, India | github.com/Tejas978

CAREER OBJECTIVE

Enthusiastic Full-Stack Developer with expertise in MERN stack and hands-on project experience. Proficient in Java, building scalable and user-focused web applications. Passionate about applying technical skills and delivering effective solutions through innovative projects

EDUCATION

VPPCOE & VA, University of Mumbai

B.E. in Information Technology; CGPA: 8.1/10

Mumbai, India

July 2022 – May 2026

Matoshri College

HSC - Science; 88%

Chandrapur, India

2022

Macaroon Students Academic

SSC – 10th Grade; 81%

Chandrapur, India

2020

EXPERIENCE

Google AI-ML Virtual Internship

AI-ML Intern — AICTE & EduSkills

Remote

July 2025 – Sept 2025

- Completed a 10-week AI/ML virtual internship supported by the India Edu Program and Google for Developers.
- Learned and applied core machine learning and artificial intelligence concepts through hands-on projects.
- Received mentorship from industry experts and documented internship outcomes and learnings.
- Collaborated with peers on mini-projects to build AI/ML solutions for real-world problems.

PROJECTS

SkillBoost — AI-Powered Learning Management System

MERN Stack

- Built a full-stack Learning Management System with secure, role-based authentication for students and instructors.
- Developed Instructor dashboards to monitor course purchases, learner engagement analytics, and revenue metrics.
- Developed a voice-enabled AI course search feature allowing users to search courses using spoken queries.
- Integrated Razorpay payment gateway and Google authentication with end-to-end workflows for course creation, enrollment, reviews, and ratings.

CryptoVision — Cryptocurrency Tracker

React.js, Node.js, Express.js

- Built a modern cryptocurrency tracking application using React.js with a sleek, responsive user interface.
- Integrated the CoinGecko API to fetch real-time prices, historical data, and global market metrics.
- Implemented interactive charts, comparison features, and a personalized user watchlist to track selected cryptocurrencies.
- Managed global state using the Context API and deployed the application on Vercel for scalable, cross-device compatibility.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, SQL

Frontend Technologies: React.js, HTML5, CSS3, Tailwind CSS

Backend Technologies: Node.js, Express.js, RESTful APIs

Databases: MongoDB, MySQL

Developer Tools: Git, GitHub, VS Code, Postman

CERTIFICATES

Python for Data Science (Elite)

Issued: Aug 2024

IIT Madras — SWAYAM-NPTEL

Software Engineering (Elite)

Issued: Nov 2024

IIT Kharagpur — SWAYAM-NPTEL
